### PROJECT DESCRIPTION

The project involves ongoing training of California Department of Forestry and Fire Protection (CAL FIRE) personnel in the proper procedures of firing techniques, mobile attack and hand tool usage to control wildland fires. The project area is 50 acres of grassland within the property of a private landowner. The project area is entirely within State Responsibility Area. CAL FIRE Type 3 engines, bulldozer, hand crew and a fire suppression helicopter will be used for the training burn and will be present for all burning activities.

The proposed 50 acres is entirely grassland and surrounded by existing roads and proposed dozer line. There are no known threatened or endangered plants or animals in the project area. No archaeological resources have been identified within the project area. All applicable burn permits issued by the Lake County Air Quality Management District will be obtained prior to commencement of the project. This will be an ongoing project to train State fire personnel.
